

KITCHEN SHOWN IN PAINTED HARBOR

The Beauty of MDF

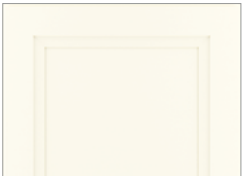

- > Medium Density Fiberboard (MDF) is a durable wood fiber material that doesn't
- > react to the environmental factors that can cause wear and tear for lasting beauty.
- > With MDF cabinetry, you won't see joint lines or halos, and you won't have to deal with joint expansion or contraction.
- > The finish is long-lasting and can withstand exposure to changes in temperature and humidity.
- > MDF also provides the perfect surface for paint, giving one that is uniform for flawlessly consistent finish.

Design Tip

Available in twelve painted finishes on a range of door styles, MDF doors are endlessly versatile. Select the finish that works best for the space. Do you want a creamy, homespun feel? A dark and dramatic look? Or a light, bright and airy space? Whichever you choose, you know you're selecting a finish that is perpetually in style.
